

REMARKS

According to MPEP §803, "[i]f the search and examination of an entire application can be made without serious burden, the Examiner must examine it on the merits, even though it includes claims to distinct or independent inventions." No showing has been made by the Office that the search and examination of this entire application will require serious burden. To the contrary, the Group I and II claims are related as product and process of using and the Group II claims include all the elements of the Group I claims. Thus, the search is not burdensome and the Office's issuance of a restriction requirement is improper.

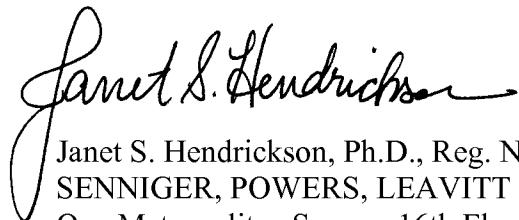

Subject to the foregoing traverse, applicants elect Group II (claims 75-104) directed to a method of killing microbes in a subject comprising treating said subject with a composition of claim 1.

CONCLUSION

Applicant submits that the present application is now in condition for allowance and requests early allowance of the pending claims.

The Commissioner is hereby authorized to charge \$120.00 to Deposit Account No. 19-1345 for a one month extension of time. The Commissioner is hereby authorized to charge any under payment or credit any over payment to Deposit Account No. 19-1345.

Respectfully submitted,
